

CHRISTINE HSIAO

Software Developer

SUMMARY

Former registered nurse turned full-stack software developer. Highly skilled in collaborating with teams, continuous learning, critical thinking, attention to details and problem-solving. Proven track record of creating and implementing successful front and back end web applications. Excited to direct my diverse skill set towards a tech-forward company committed to crafting meaningful solutions that elevate everyday life.

WORK EXPERIENCE

100Devs, remote — *Software Developer*

May 2022 - Present

- Collaborated with teams of developers to build modern and responsive web applications using the best practices.
- Built semantically structured full-stack web applications.
- Applied agile methodologies like SCRUM for project management.

Recent Projects:

BaristaWanted [live](#) | [github](#) (Fullstack Web App) – A web application that connects coffee shops with baristas needing emergency work.

- Built server using Node.js and Express with MVC architecture; Built schema data of each model to link database with Mongoose.
- Implemented token based user authentication, email confirmation and password reset features for RESTful API.
- Optimized front-end with TailwindCSS and DaisyUI.
- Utilized EJS to create HTML templates to minimize repeated code.

Carbonic Coffee [live](#) (Static Website) – A freelance project for a local coffee shop.

- Improved the shop's online presence and their cake sales by 3%.

Other Projects: [Pomodoro task tracker](#), [Harvest Hearth](#)

University Health Network, Toronto, ON — *Registered Nurse*

December 2012 - April 2023

- Worked in a fast-paced intensive care unit.
- Collaborated with multidisciplinary teams and using sophisticated patient care monitoring systems.
- Provided direct patient-centered care and demonstrated excellent assessment, critical thinking and problem solving skills.
